## About BioViz *Connect*

Use BioViz *Connect* to quickly view or analyze your genomic data. This is a free web application for visualizing data from CyVerse in the Integrated Genome Browser (IGB) desktop application.

## BioViz *Connect* Features

Using BioViz *Connect* you can:

- Quickly open your own data to view in IGB.
- View data from the CyVerse community within IGB.
- Customize the visual presentation of data.

Run powerful visual analytics functions on the CyVerse cloud infrastructure to create new datasets.
